Tanzania Health Promotion Supports (THPS).

Dear Mr/Mrs:

I am writing in reference to the position of LIS database system developer posted on AjiraLeo. With my skills and experience, I believe I can offer exactly the kind of support in your organization. I currently work as an intern in a college of informatics and virtual education at the University of Dodoma. I work as a software developer where I have been able to further strengthen my technical ability.

With my experience in database design and developing system databases also data analysis using different tools (SPSS, EXCEL and python data analysis tool) I am sure that I can provide what you desire in the position of database system developer. Also, with software development skills I have, it will be much easier for me to work with data flow in the organization's systems and maintain them.

Thank you for your consideration as a valuable addition to your team. I look forward to meeting with you to discuss how I can bring my positive energy to your administrative staff and help your company continue to grow and succeed.

Sincerely,

Noel N. Kinabo.
